## STEP 1

Print off the following pages  
To avoid printing this page multiple times, just click on 'File', then 'Print' and then select the page numbers (2, 3, 4, 5)

## STEP 2

Give to young people to colour in however they like!

## STEP 3

Supervise young people with scissors, and cut out the bunting carefully. **Don't cut on the dotted line, cut around all of the whole shape!**

## STEP 4

Turn your bunting diamonds over, and place some string or ribbon along the top section of the shape.

## STEP 5

Fold over the top of the shape along the dotted line, so that it is covering the string or ribbon. Use some pritt stick to seal it down.
